

TACTICS

A Shooter Without Shooting

Goal:

- 5 Attackers try to plant a bomb on one of the bombsites
- They must plant within 2 minutes
- If the bomb is planted it will explode within 30s
- 5 Defenders try to stop the bomb from being planted
- If the bomb is planted they must defuse the bomb → defusing the bomb takes 7s

Attention moved by mouse ●
Movement is all in reference to Attention

W → Towards Attention

S → Away from attention

A → Left compared to attention

D → Right compared to attention

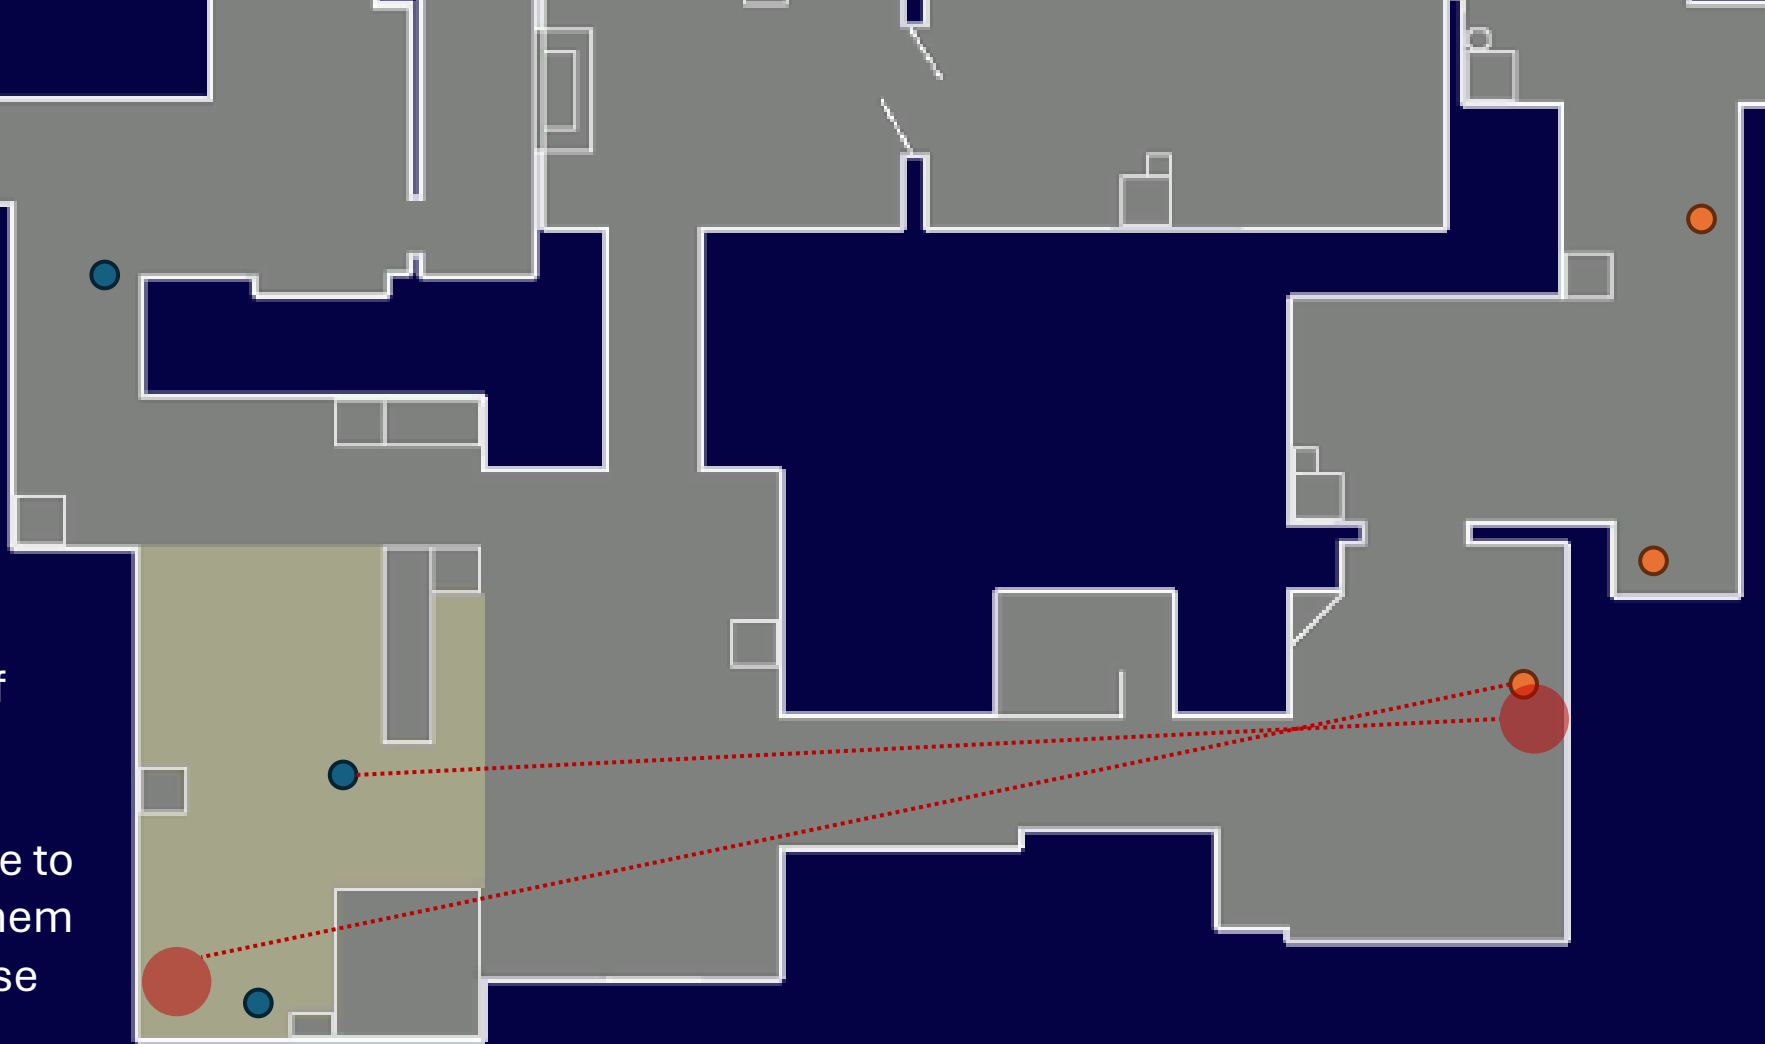

A 2D map with a dark blue background and a light gray path. The path is composed of several rectangular segments. A blue dot is located on the left side of the path. A red dotted line connects the blue dot to a red circle on the right side of the path. There are also several small orange dots scattered on the path.

A 2D map with a dark blue background and a light gray path. The path is composed of several rectangular segments. A blue dot is located on the left side of the path. A red dotted line connects the blue dot to a red circle on the right side of the path. There are also several small orange dots scattered on the path.

Visible for 0.01s
→ Holder Kills Peeker

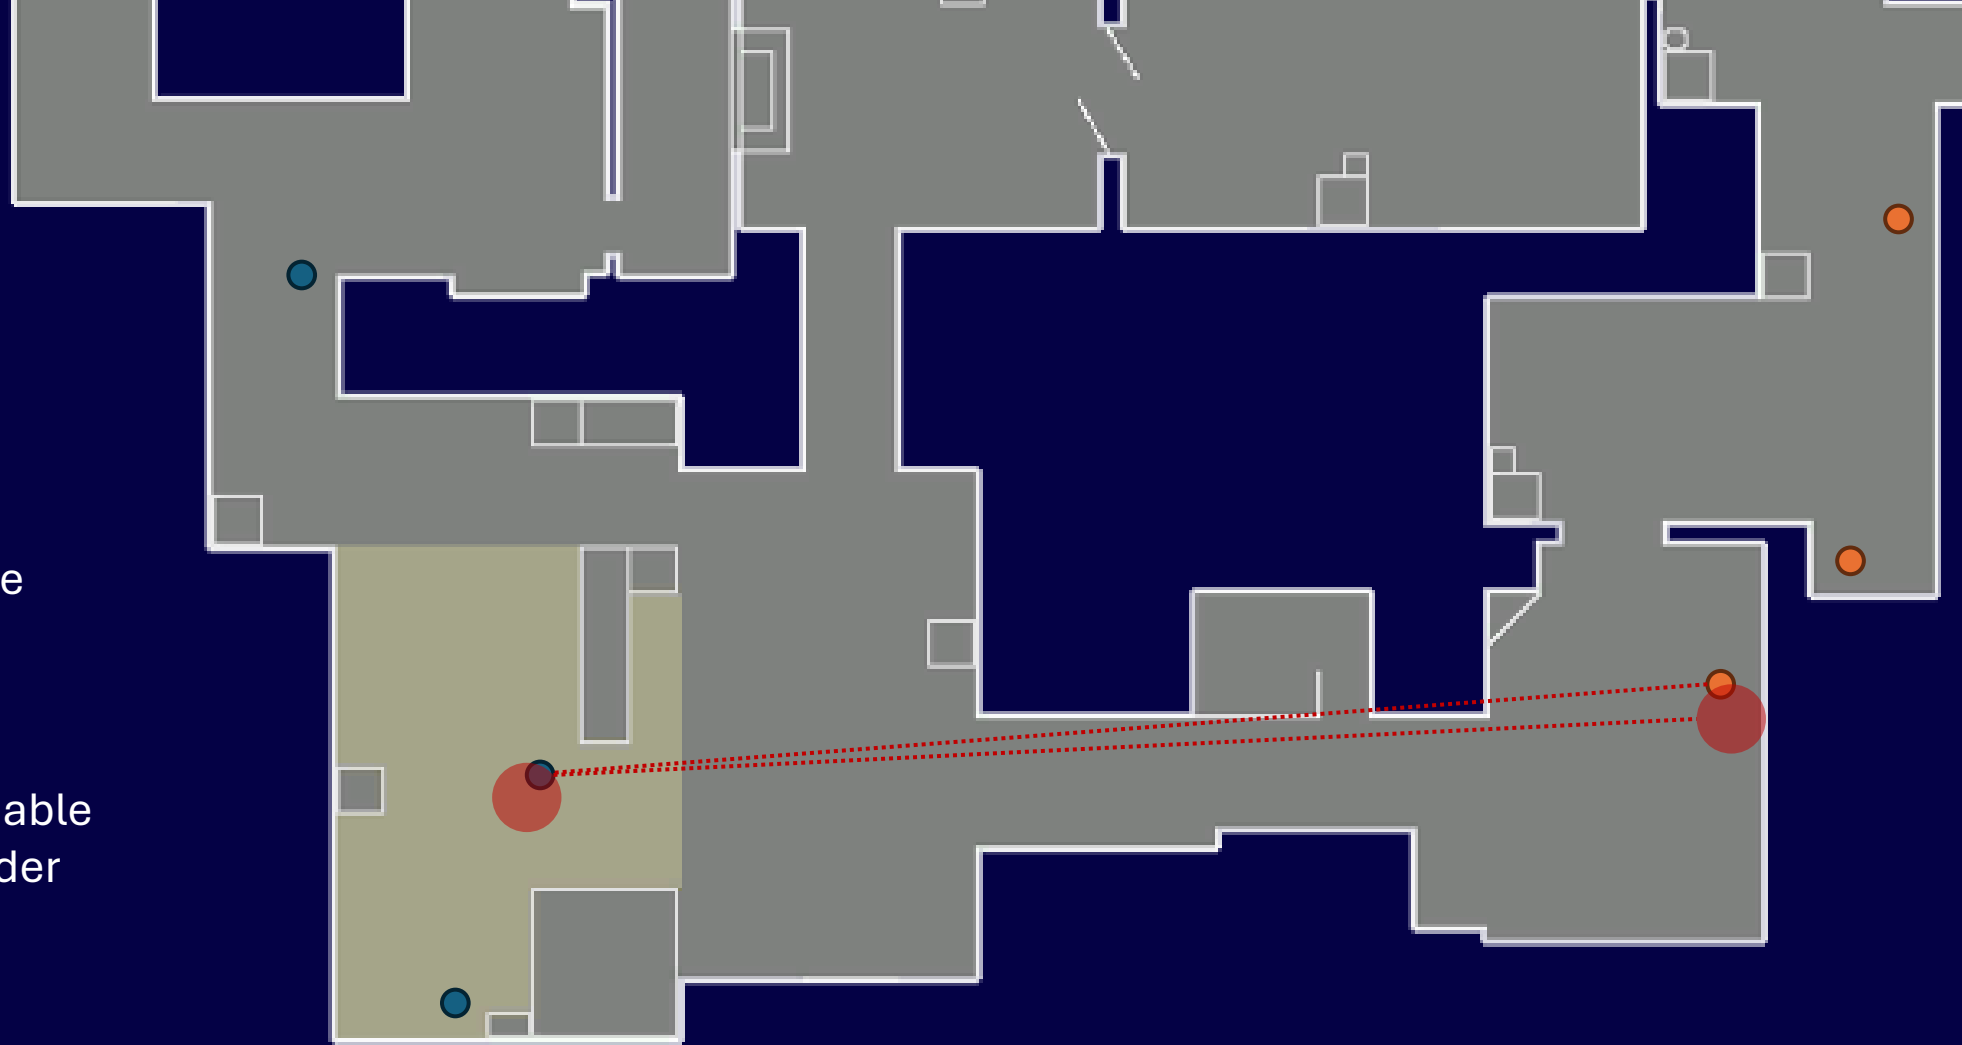

If peeker skillful they can get out of
LOS fast enough! → jiggle peek

If defender notices enemy was able to
dodge fast enough and they saw them
→ they should reposition, otherwise
defender is at disadvantage

If on 1st Frame both have
each other in attention
→ Pecker kills Holder

Reasoning: Pecker was able
to perfectly predict Holder
position.

Attention disappears while walking for more than 1s

Attention reappears when standing still

Attention disappears while
planting/defusing the bomb

Abilities

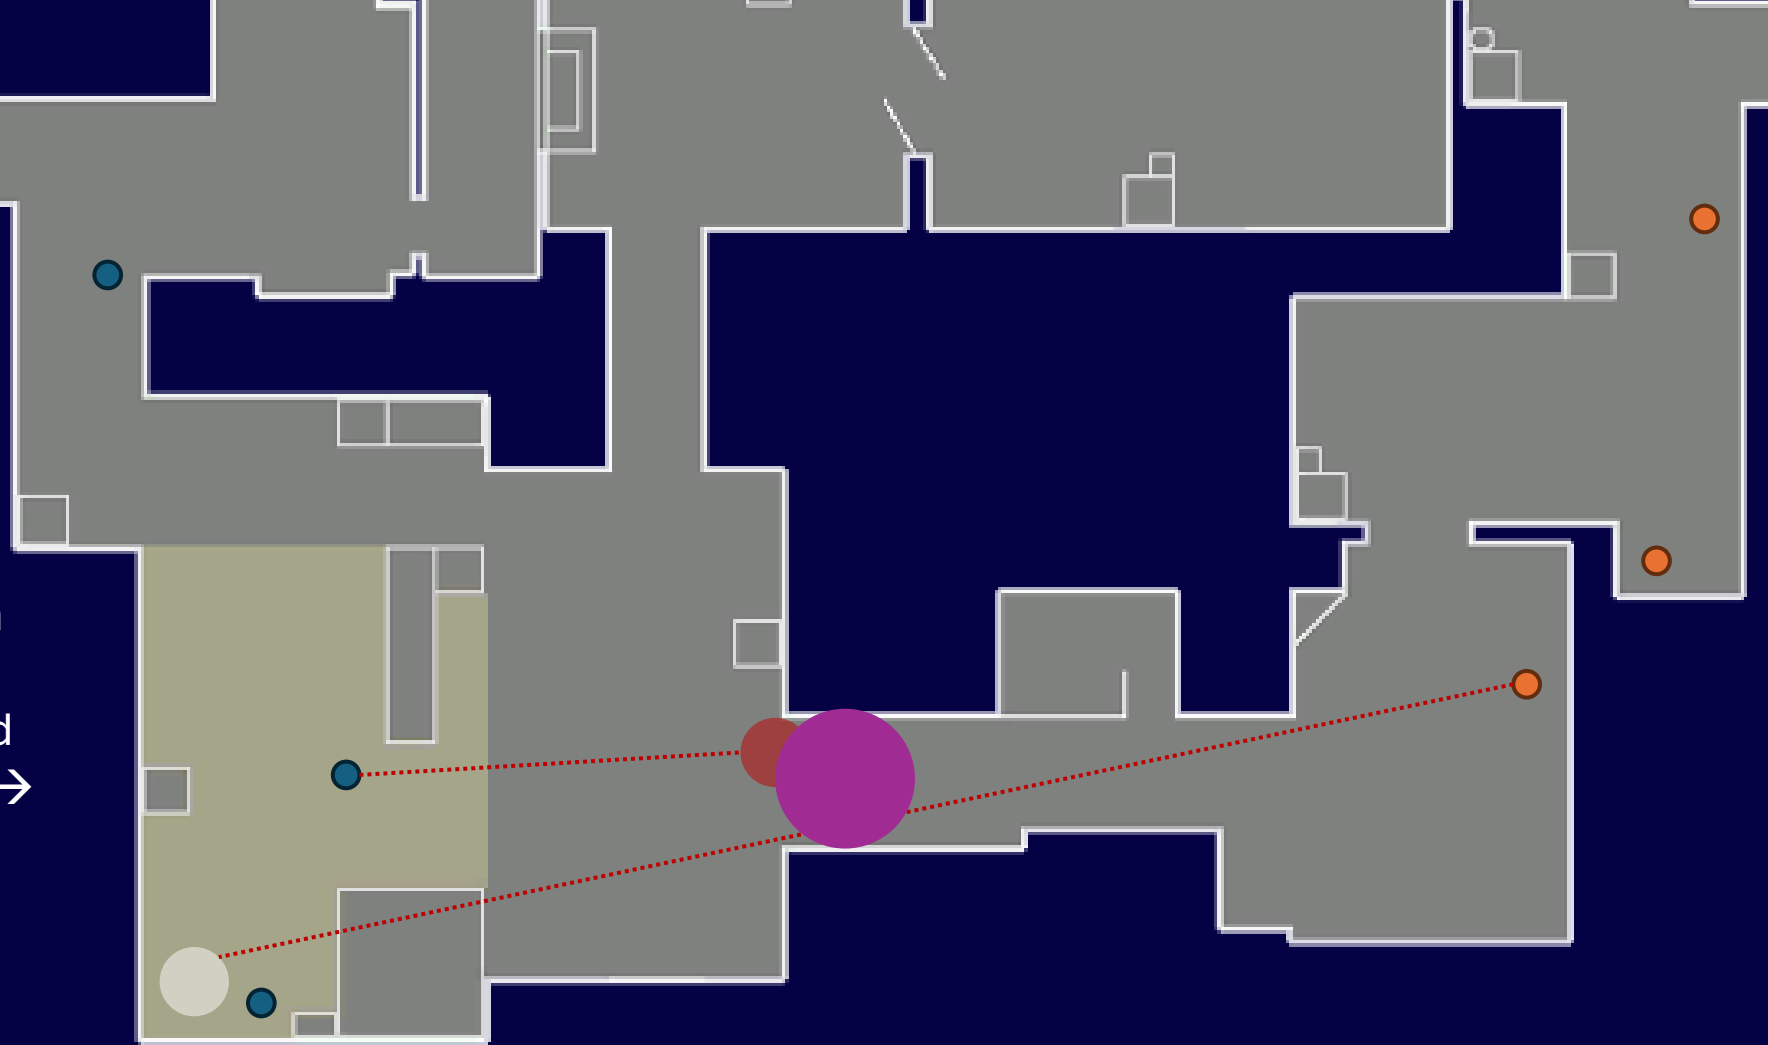

SMOKE:

- Can't look through smoke
- Attention can still pass through it, but that is a bad play. If someone pushes through it and you are not holding the smoke → person pushing wins

? Maybe

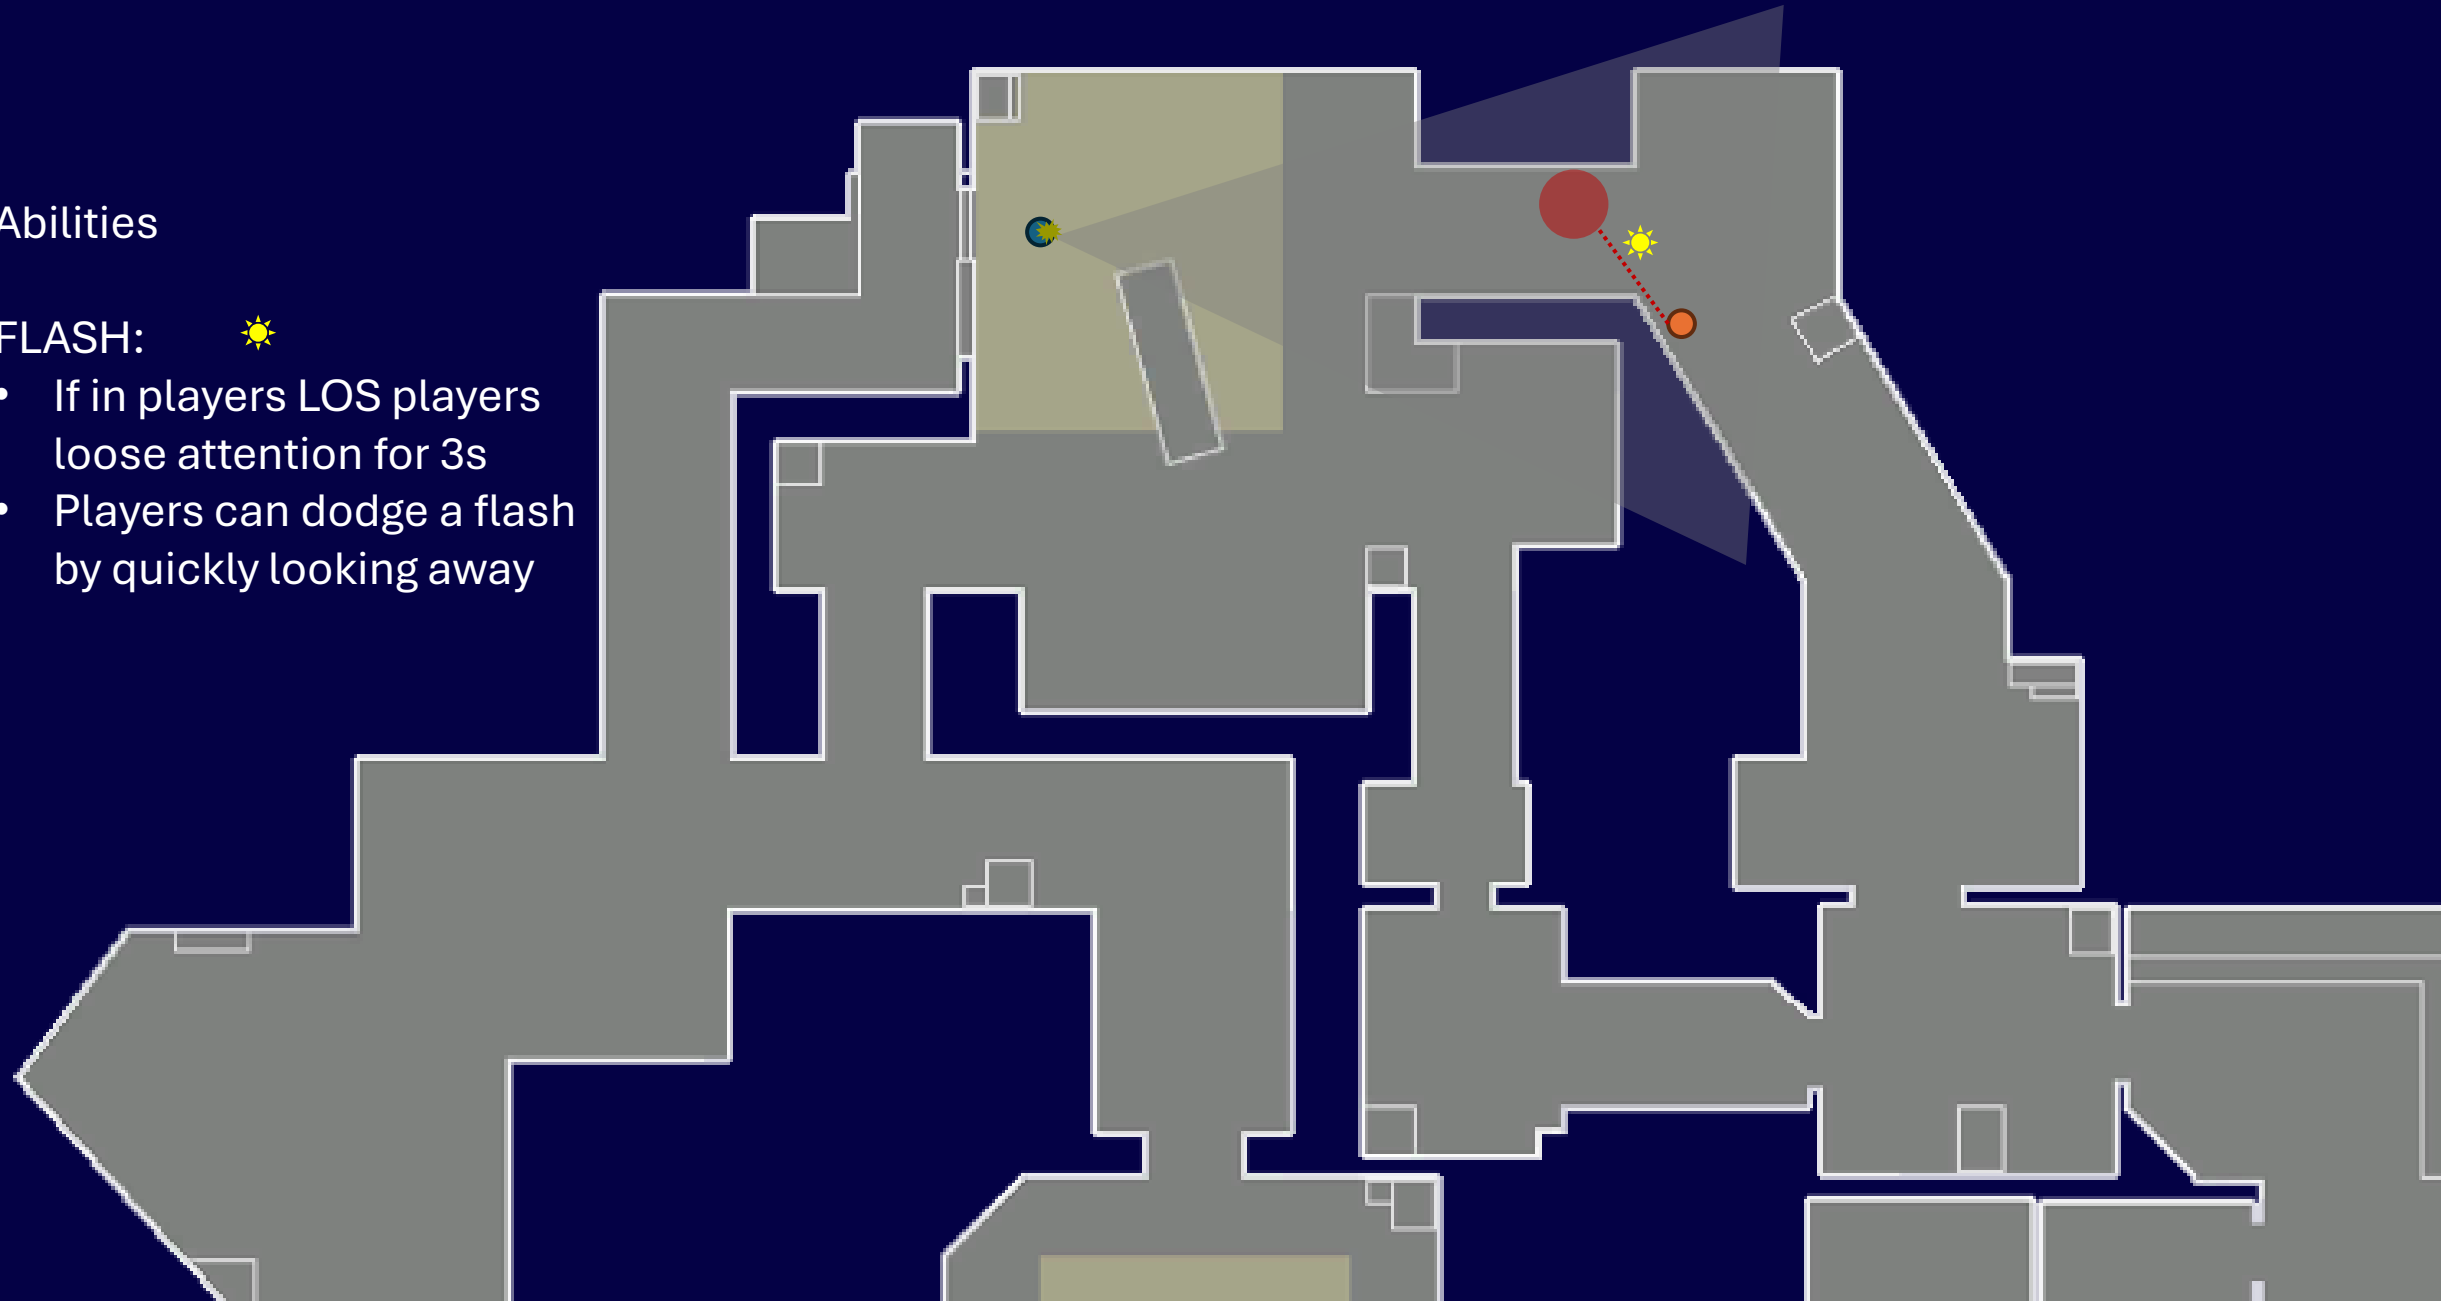

Mouse 1 to shoot through smoke,
if perfectly on enemy → kill

Abilities

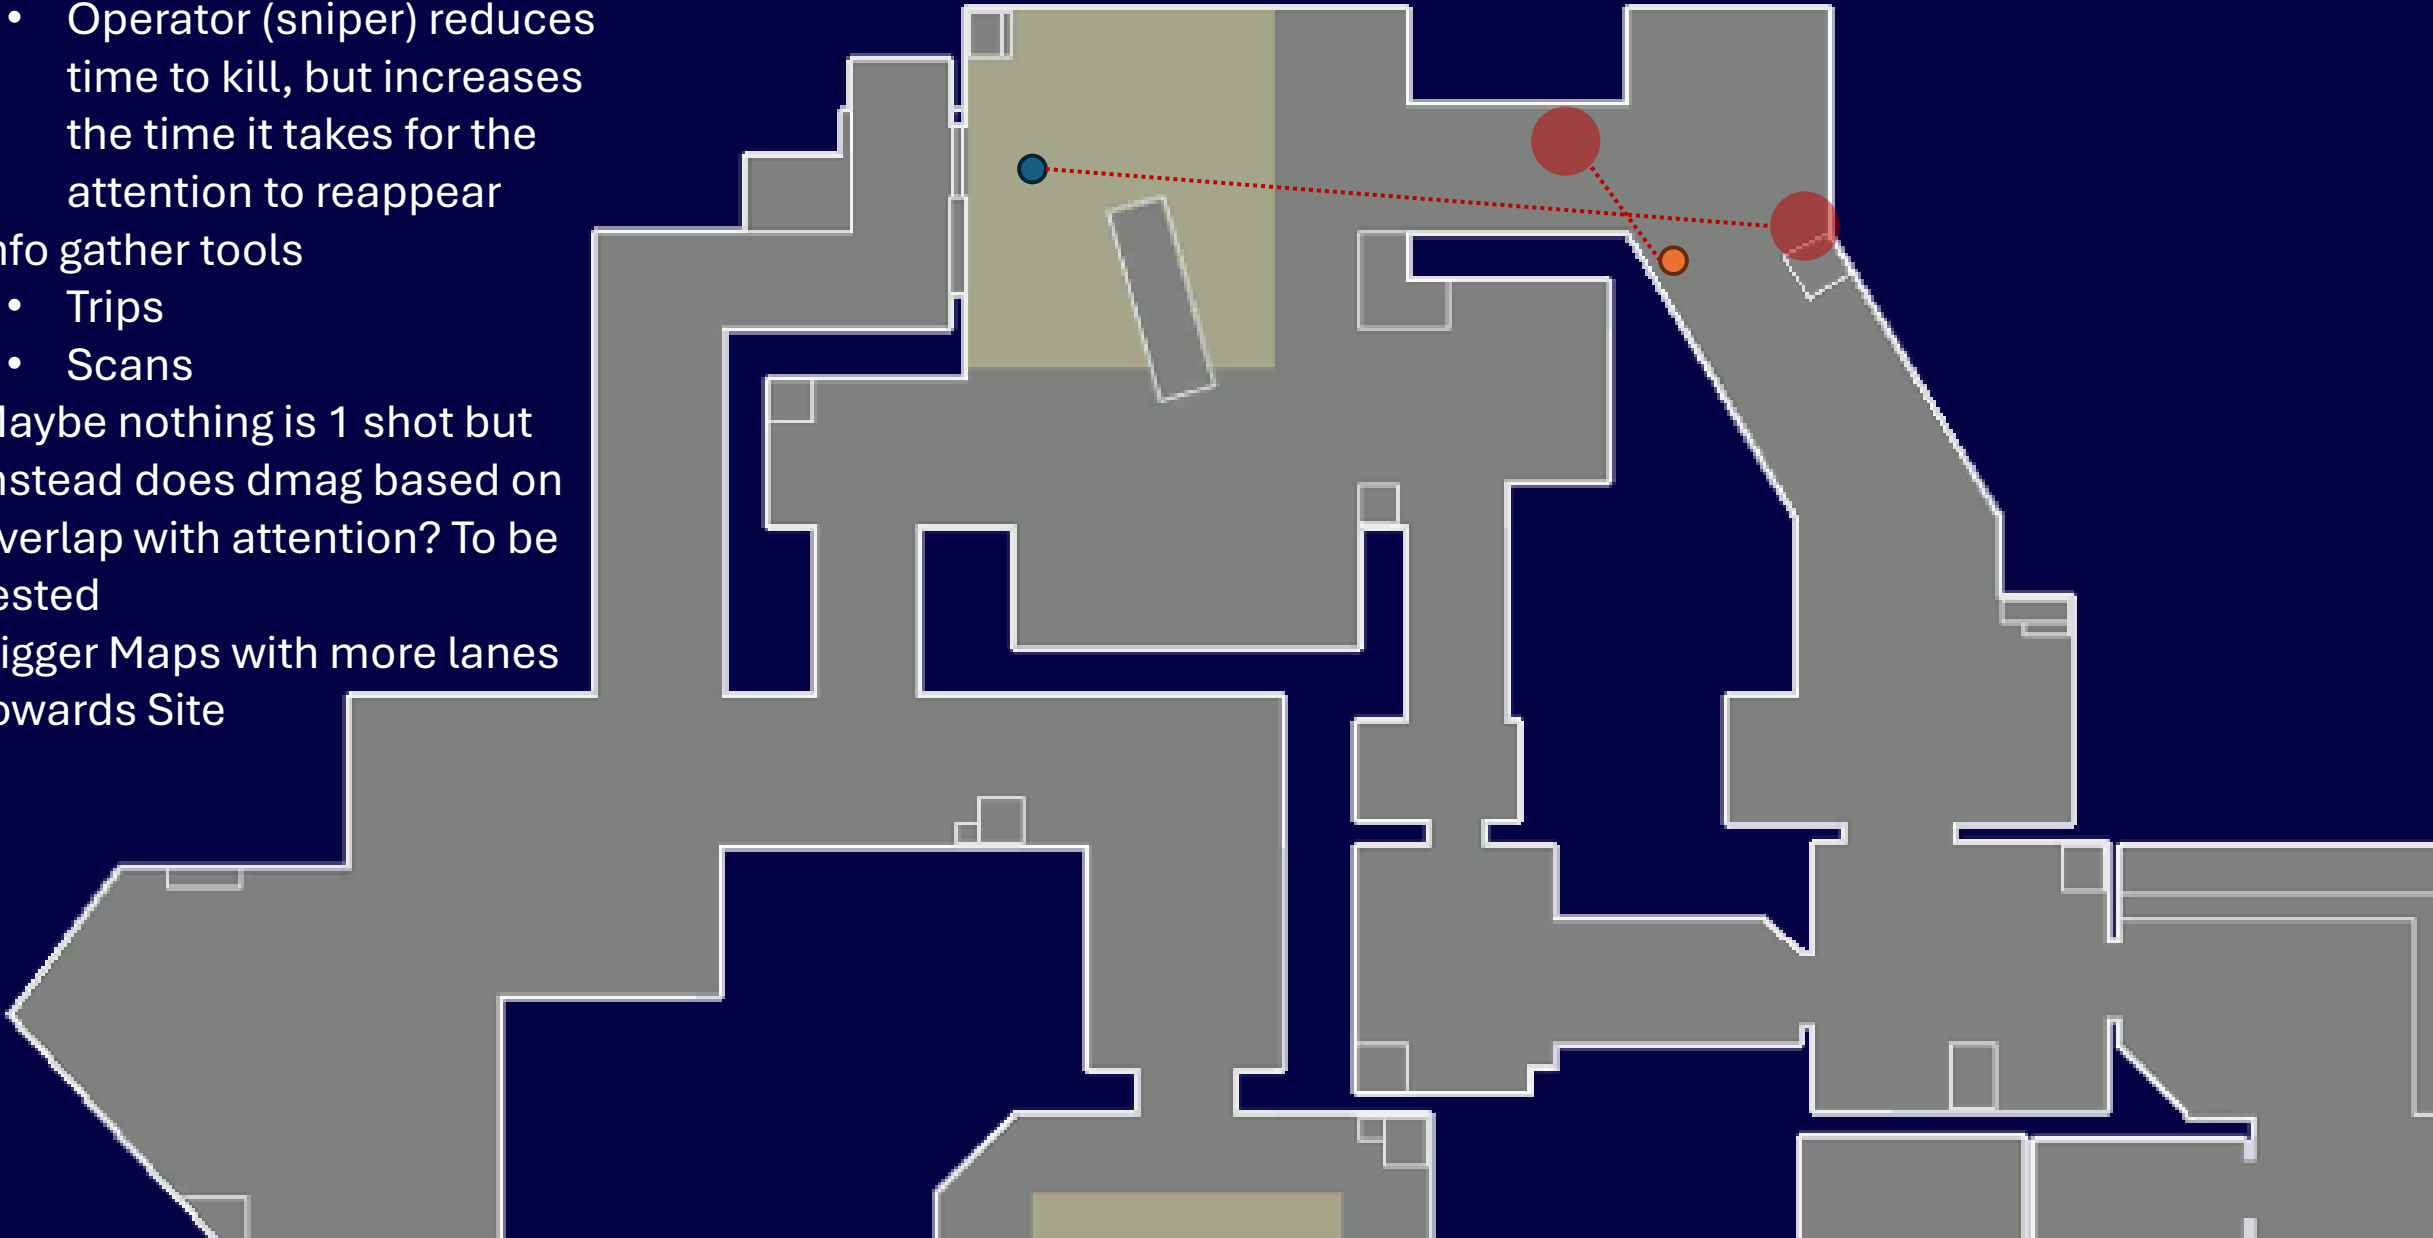

FLASH:

- If in players LOS players lose attention for 3s
- Players can dodge a flash by quickly looking away

Additional Content:

- Different Guns
 - Operator (sniper) reduces time to kill, but increases the time it takes for the attention to reappear
- Info gather tools
 - Trips
 - Scans
- Maybe nothing is 1 shot but instead does dmag based on overlap with attention? To be tested
- Bigger Maps with more lanes towards Site

Looming Problems

- At some point there might be a perfect playbook
- → If that is the case randomness must be introduced
